## ESB8 Series Push Start Cordless Inline Screwdriver

Delta Regis Tools is proud to be introducing a very unique precision cordless screwdriver built for the industrial market.

The ESB8 Series push start tools use the same precision shut-off clutch as the rest of our line-up however offers a rapid lever activated reverse for quickly switching from CW to CCW rotation. Ideal for applications like Terminal Blocks, Threaded Inserts and many more!

### Main Features:

- Consistent torque output — Torque accuracy  $\pm 3\%$ \*
- Clean, brushless motor technology
- Dependable, long lifespan
- LEDs and audible indicators alert user to proper clutch activation at shut-off, low battery, and current speed setting
- To conserve battery power, screwdriver enters sleep mode when idle for more than 3 seconds
- Charging station (purchased separately) provides quick recharge time (~45 minutes)
- Includes torque lock sleeve, belt clip, suspension bail, and 2 driver bits (PH #1 + PH #2)

Multiple torque range available!

		Inline Push Start (Lever Reverse)		
Model		ESB824P	ESB828P	ESB829P
Input Voltage		10.8V		
Torque Range	Nm	0.5–2.0	1.0–3.0	2.0–4.5
	in-lbs	4.4–18	8.8–27	17.7–40
Speed (rpm)		1200		700
Start Type		Push Start with Lever Reverse		
Weight (w/o battery)		0.72kg (1.6lbs)		
Size (L x H w/o battery)		290 x 62 mm (11.4-2.4 in)		
Applicable Battery		ESB-10VL2500		
Applicable Charging Station		ESB-CHG50N		
Applicable Bit Type		1/4" Hex		

\*ESD-safe housing available on all models— add suffix '-ESD'
